DETAILED ACTION

Priority

1. Receipt is acknowledged of the certified English-language translation of Korean Patent Application No. 10-2000-0069018, filed November 20, 2000. In view of this newly submitted document, Lee et al. (EP 1067545 A2), which was previously applied in the rejections, no longer qualifies as prior art. Therefore, the rejections based on Lee et al. have been withdrawn.

Allowable Subject Matter

2. Claims 1, 3-5, 8-18 & 22 are allowed over the prior art of record.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record alone or in combination fails to teach or suggest: in claim 1, a recording medium having sectors where data is recorded, wherein each respective one of the sectors has a data identification area, in which information identifying the type of data recorded in the respective sector is recorded; and the data identification area indicates whether the data recorded in that sector is linking data; and each respective one of the sectors has a main data area, and dummy data is recorded in the main area of the sector in which the information recorded in the data identification area indicates that the recorded data is linking data.

Claims 8 & 22 have similar allowable features as claim 1.

Claims 3-5 & 9-18 are dependent upon allowed base claims.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
